ABOUT THE PROGRAMME

Confidence before the journey begins

Travelling to a new country is exciting, and a little daunting when it all happens in English. Global Explorers Preparation Week is a short, intensive online course that prepares juniors aged 10 to 17 for exactly that: the airport, getting around, everyday situations and making new friends, all before they set off.

WHO IT'S FOR

- Students travelling for a study trip, summer school or exchange
- Families relocating or holidaying abroad
- Any young learner who wants to feel ready to speak English in the real world

WHY IT WORKS

Real situations, not textbooks

Every lesson is built around a moment they will actually face on their trip.

Speaking from minute one

Short, lively classes focused on confidence and real conversation.

Small groups by level

So every student is both challenged and supported, and gets to speak.

UK based native teachers

Friendly, experienced and great at working with young learners.
